

### Monthly "Electricity" Line Impacts for Residential Consumers November 1, 2009 Regulated Price Plan (RPP) Changes

The following charts show examples of the impact of the Regulated Price Plan (RPP) on the "Electricity" line of consumers bills based on different monthly consumption levels. The examples take into account the higher winter season (Nov to April) consumption threshold of 1000 kilowatt hours per month for residential consumers, the amount of electricity that is charged at the lower RPP price.
